

LAVORPRO TUCSON

The answer to tough cleaning and non-stop use.

Where thorough cleaning is needed daily, the TUCSON provides high industrial cleaning performance.

Open concept design helps to prevent the motor and pump from overheating and for easy servicing and maintenance. All electrical components are of approval standard and are splash proof.

Ideal for cleaning contractors, construction, and industrial facilities.

Made in Italy, assembled in Singapore

'Total Stop' system: Releasing and pressing the trigger stops and starts the pump automatically, saving power and water. Reduces wear and tear, increases pump life.

High quality and robust design. Robust brass pump head with built-in by pass valve. Ceramic pistons.

4 pole, low-rpm motor grants longer machine life and quieter performance.

Single phase induction motor

Technical Data

Tucson 1211 LP

Power supply	Ph / V / Hz	1 / 240 / 50	Contractor Lance with HP nozzle
Operating pressure	bar	120	30m High Pressure Hose
Max operating pressure	bar	150	40m Water Hose
Water flow rate	l/h	660	30m Electrical Cable
Power	W	3000	
Motor	Poles / rpm	4 / 1450	
Max. water intake temperature	° C	40	
Cable length	m	10	
Detergent tank	l	3.8	
Weight	kg	33	
Dimensions (L x W x H)	cm	76x41x75
